November 07, 2018

To
All the Principals
of the Affiliated colleges of
Bengaluru Central University.

Dear Principal,

We are pleased to invite you, your faculty and a group of students, preferably pursuing PG, of your esteemed institution to launch the 1st talk in the lecture series on “**Evolution and Society**”. This event is organized jointly by the Indian Society of Evolutionary Biologists, Indian Academy of Sciences, Bengaluru & Bengaluru Central University (BCU). It will be held on Saturday the 10th November, 2018 at 4.00 p.m. in Jnana Jyothi Auditorium, Central College Campus, Bengaluru Central University, Bengaluru.

Please find attached a poster of the lecture event for your information.

We hope that you will be able to join us for this lecture event. We would appreciate if you could confirm your participation by 9th November, 2018, the latest. For more information, please contact Ms. Jai Benjamin or 080-2266 1252, email: dialogue@ias.ac.in.

With regards,

Yours sincerely,

(S. Japhet)

on

10 November 2018 (Sat), 4:00-5:30 PM

Jnana Jyothi Auditorium, Bengaluru Central University

It is easy to see how Darwin's theory of Natural Selection promotes the evolution of competition and selfishness. However, Cooperation, including self-sacrifice for the sake of others, is surprisingly common in animals, including humans. In this talk, I will give a bird's eye view of ongoing exciting research, aimed at understanding how Natural Selection can also promote the evolution of such niceties as cooperation and altruism.
